

No child should have to sleep on the street. You can help ensure they don't.

You can help families at the New Orleans Women & Children's Shelter by underwriting a shelter room to provide critical support while we work with them to create a stable life for themselves and their children.

The Shelter is the region's *only* shelter provider for a uniquely vulnerable population: intact homeless families with children. Located in New Orleans' Central City neighborhood, we provide transitional shelter in a safe, home-like and child-friendly environment. Each family is assigned a room during their stay and all lodging, meals and programming are free. Programs include education and employment, financial literacy, parenting classes, children's after care, extended case management services post-residence, and more, centered on giving families enough support to achieve *and maintain* stability.

**We sheltered over 270 people last year.
2/3 of them were children.**
